

BAYER PHARMACEUTICALS BERKSHIRE, UK

“MIDDAS have invested in advanced technology giving them an edge on complex manufacturing challenges. Nothing is beyond them it seems.”

Spiralis Europe Ltd

Project Overview

Project	Bayer Pharmaceuticals
Location	Reading, Berkshire
Application	Bespoke, fixed and sliding glazed screen
Walls	MIDDAS bespoke screens
Ceilings	N/A
Doors	Hexagonal pattern sliding screen with flush bonded glass
Glazing	Hexagonal pattern fixed screen with flush bonded glass
Miscellaneous	Stainless steel concealed track and threshold. Removable hexagonal frames for ease of cleaning
Performance	Aesthetic screens to divide work place

Background

Bayer is a global enterprise with core competencies in the Life Science fields of health care and agriculture. Its products and services are designed to benefit people and improve their quality of life.

Spiralis is a specialist in the design, planning and supply of coordinated interiors ranging from structural elements to furnishings and accessories. With the experience of professionals who have been active globally in the office space planning and office fit out industry and the clear objective of delivering the highest quality level at every stage of the process.

Brief

As part of the fit-out to the refurbished offices at Bayer, MIDDAS were appointed by Spiralis to design, engineer & manufacture a screen to divided the work space within the area. The screen was to be fixed to one side with a sliding element to the other. The design called for a hexagonal pattern which would be reflected throughout other elements of the interior fit-out.

Solution

Working with the Spiralis team, MIDDAS developed a bespoke solution which met the design brief for a flush glazed sliding screen, mounted on a hexagonal pattern, powder coated frame which is removable to allow periodic cleaning of the glass.
